Office Action Summary

Application No.

10/663,268

Applicant(s)

GIETT ET AL.

Examiner

Essama Omgba

Art Unit

3726

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-28 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-6, 8, 10-12, 14-20, 22, 24-26 and 28 is/are rejected.
- 7) ☒ Claim(s) 7, 9, 13, 21, 23 and 27 is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. ____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Objections

2. Claims 1-28 are objected to because of the following informalities: in claims 1 and 15, line 9 of each claim, --the-- should be inserted before "clips"; the same change should be made in claims 4 and 18, lines 3 and 7 of each claim, in claims 5 and 19, line 5 of each claim and in claims 14 and 28, line 4 of each claim; in claims 9 and 23, "a" in line 2 of each claim should read --an--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3726

4. Claims 1-4, 14-18 and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Myers et al. (WO 97/44275).

With regards to claims 1 and 15, Myers et al. discloses a machine for securing a border wire on a mattress inner spring, the machine comprising a support 12 for supporting the mattress inner spring 8 and border wire 6, a clip applicator 20, 22 for applying clips 9 to the mattress inner spring and the border wire to secure the border wire to the mattress inner spring, a movement generating system 18 for effecting relative movement between the mattress inner spring and border wire and the clip applicator such that the clip applicator successively secures the clips to the mattress inner spring and the border wire around a perimeter of the mattress inner spring, a clip applicator feed system 88 configured to receive and feed to the clip applicator a plurality of non-coiled strips of clips, and a controller 200 controlling activation and deactivation of the clip applicator, the movement generating system and the clip applicator feed system, see pages 5, lines 4-17, page 6, lines 29-34 and page 11, lines 16-31. Applicant should note that the strips of clips in Myers et al. are not coiled when they are fed to the clip applicator.

For claims 2, 3, 16 and 17, see page 6, lines 2-8 and figures 1 and 2.

For claims 4 and 18, see page 5, lines 17-26.

For claims 14 and 28, see page 7, lines 14-20.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3726

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 5, 6, 8, 10-12, 19, 20, 22 and 24-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Myers et al.

With regards to claims 5 and 19, Myers et al. discloses a machine for securing a border wire on a mattress inner spring as shown above wherein the clip applicator feed system comprises a track 88 along which the clips travel, the track having a first feed end into which strips of clips are fed from a roll 86 and a second clip applicator end operably connected to the clip applicator for supplying the clips, see page 7, lines 36-37.

Although Myers does not disclose an operator supplying the strips of clips, however it would have been obvious to one of ordinary skill in the art that automating the supply of clips provided a distinct advantage over manual supply.

For claims 6 and 20, Applicant should note that providing a tubular track is an obvious matter of design choice wherein no stated problem is solved or unexpected results obtained in using a tubular track versus the one taught by Myers et al.

For claims 8 and 22, see page 8, lines 1-2 of Myers et al.

For claims 10-12 and 24-26, see page 8, lines 3-29 of Myers et al.

Allowable Subject Matter

7. Claims 7, 9, 13, 21, 23 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3726

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Essama Omgba whose telephone number is (571) 272-4532. The examiner can normally be reached on M-F (10-7:30) First Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on (571) 272-4690. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
